— INTERNATIONAL EDITION —

2015 **SEA-DOO** | 

LIVE THE ONLINE SEA-DOO EXPERIENCE!

THE FUN LASTS LONGER WHEN SAFETY IS IN THE DRIVER'S SEAT

When you're the driver of a personal watercraft, you need to take the safety of your passengers personally.

As the "captain," you are not only responsible for adhering to the safety rules respecting personal watercraft use, but also for ensuring your passengers are wearing the appropriate protective equipment and riding gear.

First of all, you and your passengers are required to wear an approved personal flotation device (PFD) certified for use with a personal watercraft.

Also, a wetsuit and/or neoprene bottoms will provide adequate protection to the lower part of the body. You can suffer severe internal injuries if water is forced into a lower body cavity as a

result of falling in the water or being near the jet thrust nozzle. Remember that normal swimwear cannot appropriately protect against forceful water entry.

Finally, extra protective equipment such as footwear, gloves and goggles is also recommended. The fun lasts longer when safety is in the driver's seat.

You can find all of these items at an authorized Sea-Doo dealer.

For advertising purposes, some scenes depicted in this brochure include professional riders and operators executing manoeuvres under ideal and / or controlled conditions. Do not attempt any of these or any other risky manoeuvres if they're beyond your level of riding ability, as well as your understanding and respect for the performance of your Sea-Doo watercraft or boat. RIDE SMART FROM THE START. Always ride responsibly and safely. Follow all instructional and safety materials. BRP recommends a minimum operator age of 16 years old for riding a watercraft. Users must always respect any applicable law establishing a minimum age for riding a watercraft. Always wear appropriate protective clothing for your type of boating use, including a Coast Guard-approved personal flotation device. Always remember that riding and alcohol / drugs don't mix. Operate your craft keeping a safe distance between yourself and others. Always observe applicable local laws and regulations. Because of its ongoing commitment to product quality and innovation, BRP reserves the right, at any time, to discontinue or change specifications, price, design, features, models or equipment without incurring any obligations. Some models depicted herein may include optional equipment. Prices are based on Manufacturer Suggested Retail Prices. Dealers may sell for a different price. Taxes not included. Depending on location, products are distributed by BRP European Distribution SA, BRP US Inc., BRP Australia Pty Ltd. or Bombardier Recreational Products Inc. — ULTRA-DURABLE —

NEOPRENE

— PFDs —

**Robust outer shell
meets form-fitting
movability.**

FREEDOM PFD TECHNICAL FEATURES

1. Heavy-duty front zipper.
 2. Armholes cut large for riding comfort.
 3. Lumbar comfort zone inside the PFD.
 4. Segmentations at front and back for better comfort and ease of movement.
 5. 2 woven straps hidden at back with quick release buckles.
 6. Side panels in stretch lining fabric for improved comfort.
 7. Strategically-placed mesh drain panels.
 8. D-ring for lanyard connection.
 9. D-ring at back neck for goggle-to-PFD attachment cord.
- Ultra-durable neoprene outer shell.
 - Enhanced-comfortable fit.
 - Soft, beveled PVC and polyethylene foam inserts.

The Freedom PFD's flexible neoprene construction makes it ideal for both riding your watercraft and doing tow sports.

CHOOSING THE RIGHT PFD IS SIMPLE

WHICH PFD IS THE RIGHT ONE FOR YOU?

You want a PFD that combines great value with high quality components that won't compromise looks, safety, comfort and functionality. Easy fitting so it can be shared by a wide range of people, and versatile so it can be used for a variety of water sports, you also want a fast-drying PFD that can be worn multiple times during the course of the day, making it perfect for the whole family.

The PFD material for you		NYLON				
Special attributes		• Dries faster than neoprene	• Lightweight, low water absorption	• Affordable and best value	• Perfect for sharing

*Some sizing & colours may vary in your region.

You want a personal, “athletic” PFD just for you, that matches your active riding style and can handle rugged daily — and all-day — use. Snug fitting to intuitively shadow your body’s movements, and roomy where it counts not to hinder your mobility, your PFD will allow you to express yourself on the water.

You want the ultimate PFD that blends the functional attributes of nylon and the performance features of neoprene, and also makes you feel environmentally green when surrounded by blue. PVC-free and sustainable, your PFD has to feel light even when wet and maximize air flow, because the more comfortable you are, the better and longer you'll ride.

For best results, have someone else take measurements. Measure body in swimsuit or underwear. Tape must be snug but not tight. If measurements fall between two sizes, order the larger size.

Stand with back straight, without shoes; measure from the top of the head to the floor.

Measure under your arms, around the fullest part of your chest.

Measure around your natural waistline, keeping one finger between the tape and body.

Stand with legs together, measure around the fullest part of hips, ensuring the tape is level.

Hand on hip, from center back neck bone, along shoulder point around elbow to bottom of wrist bone.

From performance and comfortable gear to playful and practical accessories, you can now break free and give your ride that personal spark that says You.

Everything you need to make personal watercrafting totally family-friendly, including fast-drying PFDs that are easily shared, the perfect formula to create memorable moments.

With accessories like the Tow Pro that turn you into a water sports star and boardshorts that scream awesome on the beach, you won't be able to resist the pull of waving your true colours.

PERSONALIZE YOUR
SEA-DOO SPARK™
 — WITH FULLY INTEGRATED —
ACCESSORIES

The Chill Shade is a versatile sun shade that was engineered to be mounted on the Sea-Doo SPARK while anchored or easily removed and set up on the beach, providing shade on the sunniest of days.

CHILL SHADE

Don't go looking for shade - bring it with you. The innovative Chill Shade provides versatile protection both on the water and the beach. It can even be used at speeds up to 35 mph (56 km/h) when properly set. The system can be easily installed while out on the water and stores conveniently on a Sea-Doo SPARK model. Made of colourful netting, it comes with 2 pouches to be used as sand anchors on the beach.

The higher tow point makes it easier for wake boarders and skaters to jump and get air, while the spotter handles promote better directional stability. Equipped for stowing your board when not in use, and with a special latch for hanging the ski rope between rides.

Who says you need a supercharged engine to pull wakeboarders and tubers? The Tow Pro delivers the leverage and high-powered hull stability you need to turn your 90 hp Sea-Doo SPARK into a tow sport personal watercraft.

TOW PRO

Three accessories in ONE – a tow pylon, spotter handle and equipment rack. Add more fun to pulling wakeboarders, wakeskaters and tubers thanks to higher tow point. Give the spotter more confidence with ergonomic grab handles. Carry your board out to clear water. Even includes a strap for conveniently stowing your tow rope.

The variable trim system provides pre-set positions for quick settings when adjusting boat trim, while maximizing acceleration and high-speed stability. When you trim up, you'll have a drier ride, which helps when towing. When you trim down, you can ride more aggressively while staying glued to the water.

VARIABLE TRIM SYSTEM

Activates and provides instantaneous VTS adjustment. Switch mounted on handlebar allows fine tuning of watercraft trim angle while riding. Simple plug-in connection. Includes switch, cap and hardware necessary for installation.

Sea-Doo SPARK with iBR™*
295100630

*Intelligent Brake and Reverse (iBR)

Ahead of the curve on the market in terms of innovative protection from dock damage, these Snap-in Fenders effortlessly lock in and out of the pre-molded holes on the bumper.

Snap-in Fenders float and can fit any Sea-Doo.

SNAP-IN FENDERS

Protect your investment with easy to install and remove fenders designed specifically for Sea-Doo watercraft. Pre-molded holes front and rear on the Sea-Doo SPARK models ensure a solid mount in the optimal spot. High visibility orange colour keeps them in sight. Sold in pairs. Patent pending. Requires Snap-in Fenders Installation Kit (295100550) to install on models other than Sea-Doo SPARK.

The Sea-Doo Speed Tie makes docking easier than ever with seven feet of retractable dock lines at the helm and on the transom that effortlessly stows out of sight. The Speed Tie system is a must-have accessory that frees up storage space and ensures you have a dock line at all times.

SEA-DOO SPEED TIE

Fully-integrated watercraft mooring system, providing the ultimate in convenient, quick and secure docking. Snap-out plates front and rear on Sea-Doo SPARK models allow for easy installation and positioning of the Sea-Doo Speed Tie system. Stores 7' (2.1 m) of rope and locks to desired length. Sold in pairs.

Sea-Doo SPARK
295100496

CARGO NET

With a 4L (1.05 US gallon) capacity, this cargo net keeps regularly used items in place. The mesh material allows water to drain out easily and air to circulate, perfect to stow your snap-in fenders, tow ropes or diving mask. An elastic cord allows you quick access, while keeping your items secured.

Sea-Doo SPARK
295100559

MANUAL REVERSE KIT

Install a reverse lever on your non iBR equipped Sea-Doo SPARK. This kit can be easily added to your Sea-Doo SPARK and will aid immensely in docking manoeuvres and trailer loading. A lever located on the left side makes it easy to engage reverse and avoid the need for aggressive or dangerous manoeuvres.

Sea-Doo SPARK
295100596

The key provides radio frequency automotive grade anti-theft technology for the marine world.

R.F.D.E.S.S. KEY

Digitally Encoded Security System Key's ball-and-socket design ensures a solid connection, even in very active riding. A radio frequency chip inside the key communicates with the vehicle wirelessly. Only when the key code matches the vehicle will the Sea-Doo SPARK start – giving you peace of mind.

Sea-Doo SPARK
with iBR
295100639

Sea-Doo SPARK
without iBR
295100629

Specifically designed for the Sea-Doo SPARK.

GRIP MAT EXTENSION

Developed specifically for the 3up Sea-Doo SPARK, this EVA foam material grip mat ensures both comfort and traction as you play on the water. Allows you to reboard to a cushioned platform while protecting it from wear and tear. Easy to install with the double sided tape attached to the mat. For full protection on a 3up, add the Grip Mat (295100556).

Sea-Doo SPARK
295100571

GRIP MAT

Developed specifically for the Sea-Doo SPARK, this EVA foam material grip mat ensures both comfort and traction as you play on the water. Allows to reboard to a cushioned platform while protecting it from wear and tear. Easy to install with the double sided tape attached to the mat.

Sea-Doo SPARK
295100556

SIDE PROTECTOR

This 3-piece rubber formed protector is specifically designed for the Sea-Doo SPARK. Its curves and angles follow the lines of the unit to enhance the look while protecting from small impacts and wear. Allows installation of the Snap-in Fenders and maintenance with no problems.

Sea-Doo SPARK
295100575

FRONT DEFLECTOR LID KIT

Made of polypropylene, this deflector directs water away from the driver's feet and legs on those colder days, but removes quickly when things heat up.

Sea-Doo SPARK
295100553

FRONT STORAGE BIN KIT

Soft-sided design matches the contours of the Sea-Doo SPARK model to maximize storage. Polyurethane construction protects items from rough waves and those spirited rides. Drain holes at bottom. Lid is included. Maximum storage capacity: 28 liters.

Sea-Doo SPARK
295100504

CUSTOMIZE YOUR SEA-DOO SPARK WITH FULLY INTEGRATED ACCESSORIES

Enhance your riding experience with a fully accessorized vehicle

Sea-Doo watercraft are the most advanced in the industry right out of the box, loaded with class leading features and useful innovations.

Customizing them with accessories that were developed and fitted at the same time the watercraft model was developed ensures you are adding accessories that integrate seamlessly into your time on the water for maximum functionality and appeal. Sea-Doo SPARK accessories from BRP help make your watercraft your own either by adding visual style details that reflect your personality such as the Attitude Graphic Kits or the Variable Trim System to make every driver an expert tow sport driver. All Sea-Doo accessories are matched to the watercraft to ensure perfect fit and functionality. Sea-Doo accessories provide the means for you to outfit your Sea-Doo watercraft to get the most out of your Sea-Doo life.

295100330

**WHISTLE**

This "pea-less" whistle produces an extremely loud, high, penetrating sound that can be heard over long distances. Unaffected by water; just clear with one quick blow.

295500554

THE PERFECT CARRY-ALL FOR CARRYING ON WORRY-FREE

Although no one expects your beach towel to be wrinkle-free, aiming for dry is something we can all agree on. That is why quality storage is important on a Sea-Doo watercraft. Adding a fitted glove box organizer, storage tray, or dry bag will make your life easier and keep your items safer when on the water. These items can help ensure when you pullout your soft-sided cooler and layout your towel on the beach that the towel is dry and your drinks are cold.

DRY BAGS

Watertight bags. Puncture-resistant PVC coated polyester fiber material. Reinforced bottom. Offers in 10 L or 25 L capacity.

269502121 • Black • 10 L (2.6 US gallon)

Includes a shoulder strap. Resistant polyester 420D with TPU coating.

269001936 • Black • 25 L (6.6 US gallon)

STORAGE TRAY

Complete with molded compartments for convenient storage of your watercraft safety kit, cooler and watertight foam insulated otter box. Also great for wallets, glasses and cell phones. Netting provides secure storage for towels, clothing and sandals. Comes with a practical integrated carry handle.

GTX & RXT (2009 and prior), except models with iS
269501478

FRONT STORAGE TRAY

Optimizes storage space on PWCs. 12 L (3.2 US gallon) capacity.

RXP-X (2012 and up),
GTX & GTS (2011 and up),
GTR (2012 and up), WAKE 155

BE SAFE AND SURE WITH AN ALL-IMPORTANT BILGE PUMP

ALLEN BERNAIS

PRODUCT MANAGER / Accessories & Riding Gear

Sea-Doo bilge pumps are a must-have for aggressive riders who spend more time than usual making waves. Whether you're freeriding off a big swell or pulling tricks in the middle of the lake, our bilge pumps are designed to keep your hull interior light and dry. And if ever the excitement of getting out on the water has you forgetting to put the drain plugs back in, a bilge pump can spell the difference between pretending it never happened and having to pull or tow your water-filled personal watercraft back out to shore. So why risk it? Protect your investment without having to deny your adrenaline rush, and just enjoy the day.

BILGE PUMP KIT

Keeps engine compartment dry. Includes 460 gph bilge pump, stainless steel mounting bracket, bilge fitting, hose and hardware necessary for installation. Ask your dealer.

See your certified BRP dealer about matching the right accessories to your PWC.

CUSTOMIZE YOUR SEA-DOO

SELECT FULLY INTEGRATED ACCESSORIES THAT WILL MAKE YOUR SEA-DOO WATERCRAFT UNIQUE TO YOU!

MAINTAIN THE LEVEL OF FUN

Keep your Sea-Doo healthy for a long life.

Sea-Doo watercraft are engineered to give families a decade of fun on the water. To help ensure the on-water fun is maximized, some off-water care is required. BRP provides a full array of care and maintenance products to ensure your Sea-Doo looks its best and performs at peak levels.

5 ESSENTIAL BRP GENUINE PRODUCTS TO ENSURE A PROPER TUNE-UP

XPS 4-STROKE SYNTHETIC BLEND OIL

IMPELLER

OIL FILTER

WEAR RING

JET PUMP OIL

MAKE THE RIGHT CHOICE

BRP's commitment to quality means that every watercraft is engineered to the highest industry leading standards. Nevertheless, a lack of proper maintenance may cause even the best components to fail eventually. By using original BRP maintenance parts, you are taking care of your investment.

See your certified BRP dealer about matching the right parts to your PWC.

SUGGESTED OFF-SEASON PRODUCTS

- **XPS carbon free fuel treatment**
The best product to clean, treat and protect your vehicle, especially for seasonal storage.
- **XPS Storage Oil**
Protect your internal engine parts from rust and corrosion due to condensation during prolonged periods of non-use.
- **YUASA Smart Shot Automatic Battery Charger**
When your watercraft battery is removed from the unit, keep it connected to ensure maximum charge.

SUGGESTED IN-SEASON PRODUCTS

- **XPS Lube**
This multi-purpose lubricant and water dispersion product should be used to prevent rust, corrosion and moisture intrusion.
- **XPS PWC Cleaning and Detailing Kit**
Keep your watercraft clean and protected to ensure your gelcoat, vinyl and other surfaces stay looking new.
- **Watercraft Cover**
While not in use, keep your watercraft covered to protect it from the UV rays and elements.

EVERY PART COUNTS

PROTECT YOUR INVESTMENT

BY ONLY USING **GENUINE** BRP PARTS

**PISTON KIT**

Everything you need in a box. Each piston kit includes: 1 OEM piston and ring, 2 circlips and piston pin.

FLUSH KIT

A must to help keep your engine corrosion free and to maximize performance. For use on older watercraft that do not yet have a "T" fitting and don't have the threaded water outlet on the ride shoe.

295500068

**COUPLER HOSE**

For most watercraft and boat models that already have a "T" fitting. Also for watercraft and boat models that use the flush adapter on the ride shoe water outlet.

295500258

**FLUSH ADAPTER**

For most watercraft and boat models with a threaded water outlet fitting on the ride shoe.

295500473

**DRILL PUMP**

Safely and easily removes engine oil.

All 4-TEC engines
295100244

TOP REASONS WHY YOUR BRP ROTAX ENGINE DESERVES XPS:

Extra engine protection for heavy loads and high RPMs.

Friction modifiers designed for optimal performance.

Additional corrosion protection for wet environments and periods of extended non-use.

All-weather synthetic base oils for easy starting.

Years of extensive R&D and rigorous testing with industry leading Rotax engines.

ENGINE OILS

XPS 4-STROKE SYNTHETIC OIL - ALL CLIMATE GRADE

Specifically engineered to maximize the performance of Sea-Doo watercraft, and formulated to prevent engine wear from intensive riding and frequent use. Designed specifically for BRP high output 4-stroke engines, not automobiles or trucks.

1 quart (946 ml)
293600112

1 US Gallon (3.785 L)
293600115

XPS 4-STROKE SYNTHETIC BLEND OIL - SUMMER GRADE

Designed specifically for BRP high output 4-stroke engines to protect in the most demanding conditions, when ridden by even the most aggressive riders.

219701711 XPS Boat & PWC Wash & Wax • 32 oz. (946 ml)

WHY USE **XPS** OIL IN YOUR SEA-DOO WATERCRAFT?

Oil matters. The right oil will give your engine the best performance, reliability and long life. It's a balancing act to deliver all three attributes – and only XPS is specifically designed to do just that in Rotax engines.

We offer our own oil for a very good reason – **YOUR SATISFACTION**. There is no regulatory standard for oil performance for the recreational industry, so each manufacturer or aftermarket company establishes their own standards, test procedures and quality controls. We want you to have the best experience with your BRP vehicle, so we set high standards for XPS oil.

It's not just about making money, as is sometimes claimed. We spend millions of dollars **DEVELOPING THE RIGHT FORMULAS**, and testing them. We test every engine type that we produce (not just one or two types) for hundreds of hours in the dyno room and

thousands of miles in real world riding – and we keep testing and reformulating as technology advances.

XPS IS GREAT VALUE. XPS doesn't cost much more than an aftermarket brand and delivers real peace of mind. Is it worth using a product that may not deliver the best ownership experience to save a couple of bucks? That's up to you to decide. Something to keep in mind: If you're buying or selling a used recreational product, most people have more confidence in the one using the manufacturer's recommended oil – you feel that the owner didn't skimp anywhere else either.

The oil used for automobiles (Passenger Car Motor Oils, or PCMOs) are formulated for what automobile manufacturers need for their vehicles – such as fuel economy and easy start-up – NOT what powersports vehicles require for optimal performance. XPS puts more emphasis on high viscosity performance, shear stability. And it protects against corrosion after a day of riding or pressure washing, long storage periods where condensation can become an issue, and oil degradation due to today's inconsistent fuel quality.

RIDE IT HARD. TREAT IT RIGHT.

**XPS. THE ONLY OIL ENGINEERED BY BRP
FOR THE LEVEL OF PERFORMANCE YOU EXPECT.**

International

THE WORLD IS OUR PLAYGROUND

Nothing is more valuable than your playtime. That is why BRP is dedicated to continually finding new and better ways to help you enjoy your favorite powersports. From snow to water to both on- and off-road fun, our passion for adventure fuels the innovations that result in the ultimate powersports experience for our customers. We value

the land and water we play on and are committed to protecting it. Our desire to thrill is paired with an emphasis on rider responsibility, placing personal safety above all else. So that each outing can be the most enjoyable, memorable and thrilling experience possible. Because your free time should always be your best time.
